ISBN-13: 9780395929735

Set in Georgia on the eve of court-ordered integration, *Clock Without Hands* contains McCullers's most poignant statement on race, class, and justice. A small-town druggist dying of leukemia calls himself and his community to account in this tale of change and changelessness, of death and the death-in-life that is hate. It is a tale, as McCullers herself wrote, of "response and responsibility of man toward his own livingness."
