As the recent deaths of sixteen Sherpas underscore, climbing Mount Everest remains a daunting challenge. Located in the Himalayas, Everest is the highest mountain in the world at a whopping 29,028 feet. In this compelling narrative, Nico Medina guides readers through the mountains ancient beginnings, first human settlers, historic climbs, and the modern commercialization of mountain-climbing. With stories of expeditions gone wrong and miraculously successful summit climbs, this is a thrilling addition to the Where Is? series!
