Alex Chen returns in this graphic novel sequel to the award-winning videogame Life is Strange True Colors, written by Zoe Thorogood (Its Lonely at the Centre of the Earth) - winner of the Russ Manning Newcomer Award at the 2023 Eisner Awards! Its been a year since Alex and Steph Gingrich left Haven Springs, Colorado, at the end of Life is Strange True Colors. Though Alex might have found control over her psychic powers, she struggles with knowing when to use her powers and when to let those around her battle their own demons, if theyll be strong enough to do so. Touring across the states in their band Manic Pixie Nightmare Girls, and preparing to meet with an interested record label, Alex and Steph find another lost soul on the side of the road Lily. A mysterious girl in the middle of nowhere, Alex and Steph take the teenager under their wing to uncover the truth of what shes running from. But theres more to Lily than meets the eye who silently struggles under the weight of heartache and memories from lives she hasnt lived, to protect those around her from the truth of pain. An all too familiar story to Alex, but is there time to save the Lily from a similar, lonely, fate? A graphic novel about found family, confronting demons, generational trauma, and living, loving, Forget-Me-Not collects issues 1-4 of the comic series of the same name, written by Zoe Thorogood (Its Lonely at the Centre of the Earth, The Impending Blindness of Billie Scott) and drawn by fan-favorite Life is Strange artists, Claudia Leonardi and Andrea Izzo. Featuring bonus behind-the-scenes content about the development of the series.
