"Whoever possesses the biggest gun or the most money is in power. All that type-shit runs these streets!" - Bishop Royal Bloodlines, is an intense and gripping urban literature masterpiece that follows the story of two brothers, Bishop and Duke, navigating life the best way they know how. Despite sharing the same bloodline, the brothers possess vastly different personalities that set them apart from each other. Growing up in the gritty streets of Newark, New Jersey, their upbringing was plagued by an alcohol-ridden, abusive father and a devoted, loving, and caring mother. This novel explores themes of undeniable love, retribution, redemption, loyalty, betrayal, and the consequences of one's actions. With Bishop serving a 7-year sentence and Duke being on the outside navigating the streets with hate in his heart for the system that separated his family, others are planning their demise. This autobiographical fiction is a thrilling tale that will continuously leave you on the edge of your seat.
