A serial killer is on the loose in Chicago. When Dani Jeffries wakes up in a dark cell, she learns that she is about to become the latest victim. As a shadowy figure comes for her at night, she finds herself face-to-face with an unimaginable monster. Olivia Thompson has recovered from her physical injuries, but she is still haunted by memories of things that go bump in the night. When an emergency brings her back to her home town, she finds herself facing a past that refuses to stay buried as she dredges up even more painful memories. In Chicago, the serial killer's victims start popping up all over town and Detective Tucker finds himself in a race against time to find the other missing girls before it is too late. But Nate isn't just searching for the latest murderer in Chicago. He's also still desperately trying to solve the cold case of Rosie Thompson. His investigation has stirred up buried truths in the small town of Mercy and it quickly becomes clear that small town secrets are the most dangerous kind. Had a Great Fall will keep you guessing until the very end.
