A deluxe bind-up edition of Naoki Urasawas award-winning epic of doomsday cults, giant robots and a group of friends trying to save the world from destruction! Humanity, having faced extinction at the end of the 20th century, would not have entered the new millennium if it werent for them. In 1969, during their youth, they created a symbol. In 1997, as the coming disaster slowly starts to unfold, that symbol returns. This is the story of a group of boys who try to save the world. The giant robot has been built, awaiting its great awakening, but the Friends identity has yet to be revealed. Time passes day by day, counting down to December 31, 2000...the day that Earth is destined to see its end. The only ones who can save the world are the nine friends who wrote The Book of Prophecy in their childhood days. Will humanity enter the new world the new century safe and sound?
