Trish has one last chance at an adventure before she starts college, so she decides to go with her friends on a small hiking expedition to a remote Indian Reservation. There they learn that the area was once considered a gathering place for spirits and gods. Trish has a feeling some of those old stories may not be entirely untrue as she starts to feel a strange presence around her. Her troubles only amplify when her friend Anna decides she needs some extreme adventuring and dares Trish to find out if one of the stories is true. What will she find at the Sacred Pool? Nothing, or something much more than she could ever have dreamed? Pooling Heat is a sensual stand-alone short story in the Lovers of Legend series. The series features romances between mortal women, and gods and men of legend.
