I should have known this was coming...I'd done the right things, chosen the right friends, kept my grades up, primed and primed and smiled when I was supposed to, and then I escaped the clutches of the man they'd chosen for me. What. An. Idiot.Or not, I suppose.If I spend the year at Pendleton Prep, I can go back on my merry way. The problem is that life here is not exactly what I expected.I'm not just another student, here to serve her time and get out. Oh no, that would never do. I've been wrapped up and served on a platter for the Devils of Pendleton Prep.They're hot, stupidly hot, and involved in something I want nothing to do with.More than one of them has her set in their sights, but she's already entangled in the world of the elite, they just don't realise it yet. Where ten begin, only three will end... how far will they go to secure their place?
