A frighteningly plausible, fast-paced thriller about a Russian cyberattack on America, involving fake news and anonymous hackers. The CIA has learned that the Kremlin is about to launch a sophisticated propaganda operation aimed at discrediting and disrupting the United States and ultimately restoring Russia to great nation status. Intercepted intelligence suggests that the operation will hinge on a single, breaking news event in Eastern Europe, supported by a sustained campaign of disinformation and cyberattacks. Code-named the "Children's Game" a chess stratagem that leads to checkmate in four moves it was probably conceived by a Russian billionaire and former FSB officer named Andrei Turov. For years Turov has been developing the infrastructure for a new kind of warfare that exploits weaknesses in western democracies and manipulates public opinion. His organization offers the Kremlin plausible deniability. But the United States has its own secret weapon Christopher Niles, a former CIA intelligence officer, who understands Turov's ambitions and capabilities. It falls to him and his small team composed of his journalist half-brother Jon, a special forces operative he would trust with his life, and Anna Carpenter, a resourceful US senator with deep roots in the intelligence community to unravel Turov's plot and restore truth to a world spiraling into chaos. The Children's Game is a frighteningly realistic, timely thriller that delves into the secret corners of Vladimir Putin's Russia, exploring the shifting world order and the murky realm of US-Russia relations.
