A wicked feline shifter. A cruel warlock. And a dark secret that can devour worlds. A bloody heart. That has been my birthday gift every year from the warlock I once loved. He used me, so I left him. And found the love of my life. We shared a blissful life together until Sebastian destroyed it all with one sweeping declaration. You will always be mine. After failing in my attempt to get revenge and barely escaping. I find myself once again starting over with the support of my friends, and trying to let go of the past. When I meet the sweet and adorably innocent local werewolf, Andrei, I think I might finally have a real shot at finding happiness again. I should have known better. Sebastian has found me and he'll do what he always does—hurt those I love. But I have a secret. The dark magic I keep chained deep within my soul is a weapon just waiting to be unleashed. I could finally claim my revenge and protect everyone important to me. But my kind of magic is forbidden. And the price for using it may be my life. A Shift in Shadows is Book One of the fantasy series Lost Legacies. If you enjoy urban fantasy vibes set in an expansive world full of snarky morally grey characters, all the found family, and a slow burning enemies-to-lovers subplot, don't miss out on this series!
