Today's culture has skewed what the view is on Christian-living. Everybody is lost in false-perception. However, God wants us to be aware and understand the truth on how to live. This book will help embark your walk in discipleship and help you ponder what it looks like to live fully for Christ with scripture and self-reflection. I pray this book is a source of encouragement in your walk with Jesus, because the following twelve steps within these pages are only just the beginning.
