Introduction

What is the AZ-104 Microsoft Azure Administrator Exam?

The **AZ-104** exam is designed for individuals who want to showcase their skills in managing Azure resources. As an Azure Administrator, you are responsible for managing various services such as compute, networking, storage, and security within an Azure environment. The AZ-104 exam validates your knowledge in performing day-to-day tasks that are critical to the smooth operation of a cloud infrastructure.

Passing the AZ-104 exam proves that you have the skills required to manage Azure workloads effectively. The certification is widely recognized in the IT industry and can open doors to various career opportunities in cloud computing.

Who Should Take the AZ-104 Exam?

The AZ-104 exam is best suited for individuals who have **AZ-104 Microsoft Azure Administrator** experience in IT administration, particularly in areas related to networking, security, and cloud computing. If you're someone who is currently working in or looking to transition into roles like an Azure administrator, cloud administrator, or systems administrator, this exam is an excellent way to demonstrate your proficiency in Microsoft Azure.

Prerequisites for the AZ-104 Exam

While there are no official prerequisites for taking the AZ-104 exam, having the following skills and experience can significantly improve your chances of success:

- Basic knowledge of networking concepts, such as DNS, TCP/IP, and VPNs.
- Experience with PowerShell and command-line interface.
- Familiarity with Microsoft Azure services and solutions.
- Understanding of virtual machines (VMs), storage accounts, and Azure networking basics.

If you're new to Azure, it's recommended to take introductory courses or practice in the Azure portal before attempting the exam. Our study materials, practice exams, and expert resources are designed to provide you with everything you need to pass your AZ-104 exam and other certifications with ease.
