Adobe pdf document could not be printed

There have been a few times where I got that message from a PDF that I obtained from an unknown source (e.g., I did not make the PDF, I received it from another party). Please choose Acrobat > Preferences (Mac OS) or File > Preferences (Windows) and click the Security (Enhanced) category. I had Confirm problem exists on macOS (Mojave) and Adobe Acrobat Reader DC of the latest version. I have repaired Adobe and uninstalled and reinstalled Adobe Reinstall Adobe Acrobat. Please choose Acrobat > Preferences (Mac OS) or File > Preferences (Windows) and When you are printing a PDF and an error pops up on the window 'The document could not be printed', it means that the error is in the software you are using. If you are unable to print PDF documents, your current Adobe Acrobat Reader might be corrupted. Reinstall Adobe Acrobat. If you are unable to print PDF documents, your current Adobe Acrobat Reader might be corrupted. I had tried to print that document from Acrobat to an HP laserwriter. However It could be the Enhanced Security preferences in Acrobat that is causing this error. The easiest way to fix this issue is by reinstalling the software altogether It could be the Enhanced Security preferences in Acrobat that is causing this error. Let us know how it goes! No printer works, no driver reinstallation security disable helps. I have also deleted and DC folders in %APPDATA%\Adobe\Acrobat. To overcome the To fix PDF printing issues, check the printer status, connection, and settings, update the driver, or try printing another PDF. These steps can solve common problems I have tried using Print as an Image, removed Enable Enhanced Security, turned off Protected View, and removed the option to view PDF/A documents. However, when I tried to print via Apple's Preview, it worked just fine The easiest way to fix this issue is by reinstalling There have been a few times where I got that message from a PDF that I obtained from an unknown source (e.g., I did not make the PDF, I received it from another party). Deselect Enable Enhanced Security, and then try to print the file.
