Appropriate heat treatment shall be identified according to ASTM A Ductile Iron Castings Tensile Requirements NO. C  
ountry Grade/40/Grade/45/Grade/55/Grade /70/Grade /90/Tensile Strength, min, psi,,,,,Tensile Strength, min, MpaYield  
Strength, min, psi GroupFerrous SG Iron I Ductile Iron Alloys Sub GroupASTM ADuctile Cast Irons Castings  
ApplicationScopeThis specification covers castings made of ductile iron, also known as spheroidal or nodular iron, which is  
described as cast iron with the graphite substantially spheroidal in shape and essentially free of other forms of graphite, as  
defined in Terminology A No precise quantitative relationship can be stated between the GRA asting ExamplesA common  
item Portland Bolt stocks made to ASTM A include Hillside Washe. This specification covers ductile iron castings, also  
known as spheroidal or nodular iron, that is described as cast iron with the graphite substantially spheroidal in shape and  
essentially free of other forms of graphite. F. info@ () Taylor Rd, Houston, TX View PDF. Designation: A -(Reapproved)e1  
Standard Specification for Ductile Iron Castings1 This standard is issued under the fixed designation A ; the number  
immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last  
revision Document Center Inc. is an authorized dealer of ASTM standards. otnotScopeThis specification covers castings  
made of ductile iron, also known as spheroidal or nodular iron, which is described as cast iron with the graphite This  
standard is issued under the fixed designation A ; the number immediately following the designation indicates the year of  
original adoption or, in the case of ASTM A() Standard Specification for Ductile Iron Castings Description This specification  
covers ductile iron castings, also known as spheroidal or nodular iron, that This standard is issued under the fixed  
designation A; the number immediately following the designation indicates the year of original adoption or, in the case of  
revision, the year Standard Specification For Ductile Cast Irons Castings.
