NEW YORK TIMES BESTSELLER From the acclaimed author of *Signal Fires* and host of the hit podcast *Family Secrets* a memoir about the staggering family secret uncovered by a genealogy test, an exploration of the urgent ethical questions surrounding fertility treatments and DNA testing, and a profound inquiry of paternity, identity, and love. *Memoir* gold a profound and exquisitely rendered exploration of identity and the true meaning of family. People In the spring of 2016, through a genealogy website to which she had casually submitted her DNA for analysis, Dani Shapiro received the stunning news that her beloved deceased father was not her biological father. Over the course of a single day, her entire historythe life she had livedcrumbled beneath her. *Inheritance* is a book about secrets. It is the story of a woman's urgent quest to unlock the story of her own identity, a story that had been scrupulously hidden from her for more than fifty years. It is a book about the extraordinary moment we live in, a moment in which science and technology have outpaced not only medical ethics but also the capacities of the human heart to contend with the consequences of what we discover. Dani Shapiros memoir unfolds at a breakneck pacepart mystery, part real-time investigation, part rumination on the ineffable combination of memory, history, biology, and experience that makes us who we are. *Inheritance* is a devastating and haunting interrogation of the meaning of kinship and identity, written with stunning intensity and precision.
