Eton's Escape book 3 of Bullard's BattleEton journeys to Switzerland, unimpressed at finding Garret there as his backup. Barely recovered but pissed and mobile, Garret refuses to be kept out of service any longer. Eton's intel leads them to a small village, to a woman in distress, and to someone who likes cleaning up a trail a little too much. Living a quiet life with her aging father, Sammy is surprised by an offer of help when she gets an unexpected flat tire. Strangers in this area are not common, and neither are they well received. Still this stranger's a can-do person, and she instinctively turns to him when she soon needs additional help. Only to find he's partly why she's in trouble-and he's got bigger troubles of his own. Now they both had to get out of this nightmare and somewhere safe and sound, ... before it's too late.
