"Superb historical fiction, as fresh, vivid and vital as this morning's headlines ... proves once again that nothing really changes, be it a soldier's life - or great storytelling." Lee Child
AN ENDLESS WAR. A BLOOD-SOAKED BATTLEFIELD. A BAND OF BROTHERS. The epic sequel to Essex Dogs, continuing the New York Times bestselling historian's trilogy of novels following the fortunes of ten ordinary soldiers during the Hundred Years War. 1347. Bruised and bloodied by an epic battle at Crecy, six soldiers known as the Essex Dogs pick through the wreckage of the fighting and their own lives. Now a new siege is beginning, and the Dogs are sent to attack the soaring walls of Calais. King Edward has vowed no Englishman will leave France until this city falls. To get home, they must survive a merciless winter in a lawless camp deadlier than any battlefield. Obsessed with tracking down the vanished Captain, Loveday struggles to control his own men. Romford is haunted by the reappearance of a horrific figure from his past. And Scotsman is spiraling into a pit of drink, violence, and self-pity. The Dogs are being torn apart but this war is far from over. It won't be long before they lose more of their own. From a vast siege camp built outside Calais' walls, to the pirate ships patrolling the harbor, and into the dark corners of oligarchs' houses, where the deals that shape and end lives are made, this captivating and darkly comic story brings the fourteenth century vividly to life.
