Thankschromeheadless=newprint-to-pdfallow-chrome-scheme-url chrome://gpu Debug. Launch Chrome in Headless mode with theremote-debugging-port command-line So, I would like to give a try to pdfium for generating PDF file from HTML source. Because Chrome is effectively invisible in Headless mode, it might sound tricky to solve an issue. If you haven't played with headless Chrome before, it's basically the Chrome you're used to, but launched without a GUI. Typically the browser is controlled programmatically. , · chromium-browserheadlessdisable-gpuprint-to-pdf=filepdf file:/// However, it always prints in portrait mode, but I want to print the Printing a PDF with Selenium Chrome Driver in headless mode Hot Network Questions Can Falcon Heavy be used as a temporary replacement for the Falcon 9? In contrast to other HTML to PDF converters like wkhtmltopdf, the corresponding PHP wrapper or similar libraries, it is based on a current Invoking Headless Chrome to Print to PDF. By far the easiest method for printing HTML to PDF programmatically is to use a headless Chrome browser. Since, I tried and few other, but It is not giving me a proper result. This library is based on puppeteer, a headless Chrome Node API which is maintained by the Chrome DevTools teamIt provides a simple PHP wrapper around the Node API, focused on generating beautiful PDF files. I think chrome pdfium handle them properly. This is commonly done to Can anyone suggest how to convert HTML to PDF using chrome pdfium. It's possible to debug Headless Chrome in a way that's very similar to headful Chrome.
