Why Does the World Exist?: An Existential Detective Story is a nonfiction work authored by Jim Holt. Why do mirrors reverse left and right but not up and down? In this scintillating collection, Holt explores the human mind, the cosmos, and the thinkers Why Does the World Exist?: An Existential Detective Story is a nonfiction work authored by Jim Holt. He and the book were on the LA Times bestseller list during the last quarter of Moving away from the narrower paths of Christopher Hitchens, Roger Penrose and Stephen Hawking, the celebrated essayist Jim Holt now enters this fascinating debate with his Why is there a world rather than nothing at all? Suggesting that we might have been too narrow in limiting our suspects to God and the Big Bang, he tracks down, among others, an eccentric Oxford philosopher, a Nobel Laureate

As the book's title suggests, the question that animates Holt is, "Why does the world exist?" By "the world," Holt means everything that exists, not just the Earth. 'Why is there a world rather than nothing at all?' remains the most curious and most enduring of all metaphysical mysteries. He and the book were on the LA Times bestseller list during the last quarter of, and the first quarter of The book was also a National Book Critics Award finalist for nonfiction Tracking down an eccentric Oxford philosopher, a Physics Nobel Laureate, a French Buddhist monk who lived with the Dalai Lama, and John Updike just before he died, Holt pursues unexplored angles to this cosmic puzzle. Moving away from the narrower paths of Christopher Hitchens, Roger Penrose and Stephen Hawking, the celebrated essayist Jim Holt now enters this fascinating debate with his broad, lively and deeply Jim Holt, 'Why is there a world rather than nothing at all?' remains the most curious and most enduring of all metaphysical mysteries. This question remains the most curious and most enduring of all metaphysical mysteries. Moving away from the narrower paths of Christopher Hitchens, Roger Penrose and Stephen Hawking, the celebrated essayist Jim Holt now enters this fascinating debate with his broad, lively and deeply informed Of What is infinity? As he pieces together a solution--one that sheds new light on the question of God and the meaning of existence--he offers brisk About This Book. Moving away from the narrower paths of Christopher Hitchens, Roger Penrose and Stephen Hawking who insist that science alone is capable of explaining how our cosmos came into being, the author enters this When Einstein Walked With Gödel.
