Download full-text PDF. Read full-text. Buy DIN Testing of floor coverings Determination of the anti-slip property Method for measurement of the sliding friction coefficient from Intertek Inform Testing of floor coverings Determination of the anti-slip property Method for measurement of the sliding friction coefficient. Copy link Link copied DIN, DIN and DIN EXPERIMENTAL INVESTIGATION In order to determine the sliding friction coefficient, this force is divided by the vertically acting force. Plastics + Elastomers + Foils Missing: pdf Download full-text PDF Read full-text. Figure shows as an example the GMG test device Betriebsmessung ist die Messung des Bodensystems gemäß DIN unter Berücksichtigung des Ist-Zustandes, der im Betrieb auftretenden gleitfördernden Stoffe und des Schuhwerks Kontrollmessung. It applies for the measurement of floor What happened to the test procedures from the German standards DIN, DIN and DIN? Why were the German standards DIN, DIN and DIN Buy DIN Testing of floor coverings Determination of the anti-slip property Method for measurement of the sliding friction coefficient from Intertek Inform DIN Testing of floor coverings Determination of the anti-slip property Method for measurement of the sliding friction coefficient. Material. This standard specifies the parameters for measurement of the sliding friction coefficient on surfaces usually walked on with footwear. ist die Messung des μ . Inform now! DIN states provisions governing tribometers. Download citation. This test can be carried out in wet and in dry conditions both in a laboratory and on-site. KM, die nach DIN (mit SBR-Gleit-er und NaLS-Wasser) auf dem Bodenbelag im Gebrauchszustand durchgeführt wird The DIN standard for testing the slip resistance of floor coverings in shod areas is replaced by the DIN EN standard Annex B and the national Annex NB The DIN standard for determining the coefficient of sliding friction of floor coverings is replaced by the DIN EN standard Annex D Get in touch with us.
