Overview :

Is it so bad that I tricked my older brother's best friend into taking my virginity? Maybe. In my defense, it was Dante Reid? my crush, my first love, and the one I ended up pushing away. Our paths split in opposite directions. I went to college on one coast while he returned to work with the US Army on the other. The end. Or so I thought. After graduating and attempting a bucket list of self-discovery, guess who I find standing outside the jail, bailing me out from a crime I didn't commit? Dante freaking Reid? this time with more muscles, more tattoos, and more demands. One of which is to move in across the hall from him so he can keep me safe. Like I need protection after a little felony mix-up. I don't. Unless it's from him. Because Dante has been my downfall before. And living next to the guy I gave my innocence to a long time ago may actually end in my complete devastation. Shain Rose is back with another light mafia standalone romance with forced proximity, steam, and bucket list to cross
