Sometimes life is just like paper wings. Fragile, easily torn apart, and often there are too many pieces to pick up. In the tradition of the best Southern fiction from *Bastard Out of Carolina* to *Where the Crawdads Sing*, Sherry Parnell's *Let the Willows Weep* is a heart-wrenching portrait of hardscrabble, humble lives in rural America. A keenly-observed and unflinching look at the life of Birddog Harlin as she grows up in her dysfunctional family, this novel explores the line between destruction and redemption.
