A leading Democrat challenges his party to return to liberal values and evidence-based scienceDemocrats were the party of intellectual curiosity, critical thinking, and faith in scientific and liberal empiricism. They once took pride in understanding how to read science critically, exercising healthy skepticism toward notoriously corrupt entities like the drug companies that brought us the opioid crisis, and were outraged by the phenomenon ofagency capture and the pervasive control of private interests over Congress, the media, and the scientific journals.During the COVID pandemic, these attitudes have taken a back seat to blind faith in government mandates and countermeasures driven by pharmaceutical companies and captive federal agencies, promoted by corporate media, and cynically exploiting the fears of the American people.A Letter to Liberals is Robert F. Kennedy Jr.s, challenge tolockdown liberalisms embrace of policies that are an affront to once cherished precepts.Kennedy invites readers to look at the data in order to answer questions such asDid COVID vaccines really save millions and end the pandemic?Why were the lowest COVID death rates in countries and states that relied on therapeutic drugs, and in countries with the lowest vaccination rates?Did vaccines prevent infection or transmission as officials promised?Why do COVID vaccines appear to shownegative efficacymaking the vaccinated more susceptible to COVID.Why does the most reliable data suggest that COVID vaccines do not lower the risk of death and hospitalization.Should government technocrats be partnering with media and social media titans to censor and suppress the questioning of government policies?And why have so many liberals abandoned fundamental Constitutional principles in their headlong rush to embrace pandemic policies pushed by captured bureaucrats, feckless politicians, a compromised news media, and Big Pharma?In his November 2021 book The Real Anthony Fauci, which sold over 1,000,000 copies, Kennedy made predictions that have matured fromconspiracy theories to proven facts.
