This document provides specifications for aluminium conductor galvanized steel This European Standard specifies the electrical and mechanical characteristics of round wire concentric lay bare overhead electrical conductors stranded in alternate directions, with or without grease as per EN, made of one or a combination of any of the following Conductors for overhead lines – Round wire concentric lay stranded conductors. Title: Printing Author: belmdoust@BELMDOUST Created Date/6/ AM EN()Free download as PDF File.pdf), Text File.txt) or view presentation slides online Datasheet PDF. DescriptionEN ; IEC Application. ICS The international standards covering most conductor types for overhead lines are IEC (which supersedes IEC,, and) and EN and (see Table 1) ENFree download as PDF File.pdf), Text File.txt) or read online for free BS EN is maintained by GEL/This standard is available from the following sources: BSI Knowledge. British Standards Online (BSOL). Other historical versions of this standard document also exist: BS EN [current until/08/] The European Standard EN has the status of a British Standard. The text of the draft was Acsr Din enFree download as PDF File.pdf), Text File.txt) or read online for free. These homogeneous conductors in aluminium alloy show many advantages i.e lightness, high breaking load ENForeword This European Standard was prepared by the Technical Committee CENELEC TC 7, Overhead electrical conductors.
