It is a scale version. Watch on. This kit is very simple to put together. I have a al of the Fraptor fighter. The biggest danger in messing up this kit is gluing the pieces to Full Size PDF Plans, Vectorial, Wood. The F is a mid-mounted pusher model intended to be flown with tailerons only, but it can easily be equipped with ailerons and rudders. Epoxy should be used for all critical joints such as the wing spars and motor mounts You can download it to print the al and follow. You can download it to print the al and NOTE FROM THE DESIGNER. Designed by Tomas Hellberg If you download plans and build the F, please consider sending the designer a donation for all of his hard F22_raptor_ al (in. /cm) Full Size PDF Plans, Vectorial, Wood. The dimensions of the slots and tabs are made formm depron F Raptor High Performancemm EDF Jet from FreewingPNPFJP Version Note: This is the High Performance version which includes, as of/12/, a newly designed Kv inrunner motor with blade EDF and a thrust reversing A ESC Note this design is quite a bit more complex than my other park jet designs, due mostly to the complex geometry of the real F/A It requires a LOT of heat forming foam as well as making a lot of bevel cuts and aligning parts at odd angles Construction Guide for the F/A Raptor Park Jet. Foam contact glue (such as UHU Creativ for Styrofoam) or foam-safe CA works best for general construction. Note this design is quite a bit more complex than my other park jet designs, due mostly to the complex geometry of the real F/A It requires a Construction Guide for Quick Build F Raptor. Design by Tomas Hellberg. It will certainly be great The F is a mid-mounted pusher model intended to be flown with tailerons only, but it can easily be equipped with ailerons and rudders. It is a scale version. Build it from the plans attached below Quick Build F Raptor. I have a al of the Fraptor fighter. Build it from the plans attached below.

 Difficulté Très facile

 Durée 458 heure(s)
