ISBN-13: 9780951951743

After being given a terminal diagnosis with only a few weeks to live, Jane dug up research, some decades old, in her quest to survive. Rather than aiming to cure cancer, which in many cases is unachievable, Jane's approach was to stop it growing. Remarkably her approach not only stopped it growing, it disappeared altogether. There are now clinics following her protocol, achieving remarkable successes. This book is a game-changing new dawn in the treatment of cancer. An international publishing sensation. This page-turning inspirational read is updated with a new 'Metro Map', Jane's unique and revolutionary route map to starving cancer. A glossary and index will also be included. Written in two sections, in Part 1 Jane intertwines her remarkable life story of 'terminal cancer' to full recovery, describing how she discovered a unique cocktail of off label drugs (drugs usually prescribed for other conditions) and supplements that effectively starve the cancer stem cell, the cell left behind by conventional treatment. Treatment for the stem cell is hailed as the Holy Grail, so this book plugs the missing piece into why we do not have a cure for cancer. Lead cancer researchers at top oncology centers are now using this book as a guide and Jane has a huge following of tens of thousands on Facebook. Testimonials abound from happy and delighted recovered patients and from oncologists who use her methods. National press, TV and radio have already covered Jane's ground-breaking research. Much more is in the pipeline with two documentaries and a possible movie in the future. Jane won the 'Amazing Women Global' Lifetime Achievement 2019 and the New York Big Book Award 2019
