Mending fences with my brothers as I uncover family secrets is easy compared to winning back the woman carrying my baby... CarsonSix months ago she ghosted me.She stopped taking my calls and didn't even answer her damn door.Now, with my world upside down and my arm in a cast, where do I find her, but Winter Harbor, seven months pregnant with my baby.Despite her keeping this secret from me, I want her. I've always wanted her. And even though I was dead-set on never having kids, given my own garbage dad, seeing Amaya pregnant and knowing that the baby is mine changes everything. I'm ready to right my father's wrongs and be there for my kid.I want the family life, and I want it with Amaya.But she's not convinced. And for good reason. Now I just have to prove to her that taking a chance on love-and building a family with a man who's ruined more romances than started them-is a risk worth taking.***This is the second book of the Winter Harbor series which features a quirky small town, secrets galore, and three estranged brothers who find the key to healing comes from the women who steal their hearts.
