An inspiring blend of nature writing and memoir that explores nature's crucial role in our emotional and mental health. Bats can hear shapes, plants can eat light, and bees can dance maps. When his life took him to a painfully dark place, the poet behind *The CryptoNaturalist*, Jarod K. Anderson, found comfort and redemption in these facts and the shift in perspective that comes from paying a new kind of attention to nature. *Something in the Woods Loves You* tells the story of the darkest stretch of a young person's life, and how deliberate and meditative encounters with plants and animals helped him see the light at every turn. Ranging from optimistic contemplations of mortality to appreciations of a single mushroom, Anderson has written a lyrical love letter to the natural world and given us the tools to see it all anew.
