A deluxe bind-up edition of Naoki Urasawas award-winning epic of doomsday cults, giant robots and a group of friends trying to save the world from destruction! Humanity, having faced extinction at the end of the 20th century, would not have entered the new millennium if it werent for them. In 1969, during their youth, they created a symbol. In 1997, as the coming disaster slowly starts to unfold, that symbol returns. This is the story of a group of boys who try to save the world. In 2014, Tokyo is under the complete control of the mysterious ruler known as the Friend. Kanna has chosen to step forward and confront the Friend in order to carry out the last wishes of her uncle Kenji, who has been missing since Bloody New Years Eve. As Kanna gathers a group of outcasts and misfits to face the Friend, her high school classmate Koizumi faces true horror in the brainwashing camp known as Friend Land. It is there that she sees something that no one was ever meant to see the true identity of the Friend. Who will survive in this world where it is nearly impossible to distinguish friend from foe?
