This book blew me away, completely. Gripping from page one, I quite literally couldnt put it down. Christina Lauren, New York Times bestselling author of The Unhoneymooners Growing up, Mallory Dodge learned that the best way to survive was to say nothing. And even though its been four years since her nightmare ended, shes beginning to worry that the fear that holds her back will last a lifetime. Now, after years of homeschooling, Mallory must face a new milestone spending her senior year at a public high school. But she never imagined shed run into Rider Stark, the friend and protector she hasnt seen since childhood, on her very first day. It doesnt take long for Mallory to realize that the connection she shared with Rider never really faded. Yet soon it becomes apparent that shes not the only one grappling with lingering scars from the past. And as she watches Riders life spiral out of control, Mallory must make a choice between staying silent and speaking out for the people she loves, the life she wants and the truths that need to be heard. Praise for The Problem with Forever We're left breathless and a little haunted and wanting more. Danielle Paige, New York Times bestselling author of Dorothy Must Die Heartbreakingly real a remarkable novel about the power of first love and the courage it takes to face your fears.
