Download reference work entry PDF. The term geomancy comes from the Latin geomantia, first used in Spain in the twelfth century as a translation of the Arabic 'ilm al-raml (the science of sand), the most common name for this type of divination. Geomancy had a prominent position among the medieval arts of divination. Writers and poets quoted geomantic concepts and texts. CHAPTER I ATTRIBUTIONS OF GEOMANTIC FIGURES TO PLANETS, ZODIAC, AND RULING GENII. This document appears to be an instruction manual on the modern method of geomancy using just a writing tool and a piece of paper to obtain incredibly in-depth information. Casting the Points. This is a digital copy of a book that was preserved for generations on library shelves before it was digitized. The first step is usually called "casting" or "sowing" the points. In this step, the geomancer draws sixteen lines of points, from right to left, while concentrating on the question he or she wants answered. This is a drawing by Austin Osmond Spare of an anthropomorphic figure with a leaping wolf inside.
