There will be no need to adjust the new text box. Get started with a free trial When you use Acrobat to create your PDF forms, the forms fields do not expand in size. Acrobat form fields can't do that Just resize the text box to a suitable size, right click on text box and click "Use Current Properties as New Defaults". If you can get your hands on a stand alone copy of Lifecycle Designer ES2 or ES3, then it will be easy to create a dynamic form with text fields that can accommodate multiple lines available through the properties tab, but the field stays the same size and you have to scroll to read Adobe Acrobat Pro (Windows/Mac) INMINUTES guides, change the position of fields in fillable PDFs. You can Adobe Acrobat Pro needs to have the ability to create expandable text field forms that allow the text box to expand when the user types similar to what you can do with Lifecycle. Narrator Ian Lamont is t You have to create the field big enough, or use an "Automatic" font size so that the text If you want to create a form with fields that expand dynamically when the user types text into them you have to use the LiveCycle Designer. This is a feature that has been requested a lot online In today's video, we will guide you through the process of creating a fillable PDF form using Adobe Acrobat Pro I'm working in Adobe Acrobat Pro DC and my boss wants the text box fields I am creating to be expandable. Add form fields, buttons, and more to your PDFs.
