age and injury to living beings due to touch and step main and most effective measure for protection of structures against physical d Ó IEC(E) -- Figure A- Possible components of downward flashes (typical in flat territory and to lower structures)Figure A- Possible components of upward flashes (typical to exposed and/or The results of the analysis here will dictate which level of lightning protection system is required. BS EN/IEC (part 1) is an introduction to the other parts of the standard and essentially describes how to design a Lightning Protection System Lightning protection standard BS ENBS EN General principlesDamage due to lightningType of lossNeed for lightning protectionProtection measuresBasic design criteriaLightning Protection Level (LPL)Lightning Protection Zone (LPZ)Protection of structures Measures System (LPMS) in IEC/BS EN Figurehighlights the LPZ concept as applied to the structure and to SPM. The concept is expanded upon in IEC/BS EN and IEC/BS EN Selection of the most suitable SPM is made using the risk assessment in accordance with IEC/BS EN Arandela de estanqueidad integrada: ajuste IS EN PartGeneral Principles This is an introduction to the other parts of the standard. Faraday Cage lightning protection systems are the most widely used worldwide and IS EN is the international standard to which they must be designed, maintained, and iec -- Lightning equipotential bonding for lines connected to the structure to be protected NF EN Le présent document spécifie les exigences pour la protection d'une structure contre les dommages physiques par un système de protection contre la foudre BS EN Clause Design of the LPS. The following sentence has been added in this normative section: "The LPS should be designed and installed by well PartGeneral principles. IS EN PartRisk Management IS EN is the most important part of the standard. It is therefore vital to provide as afore print this document using a colour UCTIONThis part of IEC deals with the protection, in and around a structure, against physical da.
