Write the equation of the line in point-slope form $d(2,5) = -7$ $d(1,-1) = -2$ $d(-5,-2) = d(-1,-3) = d(0,10)$ $6 = x - x +$ Write the standard form of the equation of the line through the given point with the given slope) through) through Worksheet by Kuta Software LLC Write the slope-intercept form of the equation of the line through the given points using point-slope form) through: (3, -3) and (0, -5)) through: (0, 3) and (2, 4)) through: (-4, -4) and (0, -3)) through: (0, 4) and (-1, 4) (4,7) and (5, 1) (9,) and (-3, 2) (3,) and 7(-2) Equation of a Line: Slope-Intercept Form Level Based on the point and the slope provided for each question, apply point-slope formula to find the equation of a line and express the equation in slope-intercept form: $y = mx + b$. Point-Slope Form (Practice Worksheet) Write an equation in point-slope form of the line that passes through the given point and has the given slope. Use the first point to write the equation. Write the equation of the line in point-slope form Practice Point-Slope Form. (2, 7); $m = (12, 5)$; $m =$ File Size: KB Point-Slope Form Worksheet Find the equation of the line with the given slope that passes through the given point. This level of worksheets features coordinates in the form of integers, and the slope provided can either be an Point-Slope Form Worksheet Find the equation of the line with the given slope that passes through the given point. (Use the right hand point) Write an equation in point-slope form of the line that passes through the two points given. Write the point-slope form of the equation of the line through the given point with the given slope) through (2, 3), slope = undefined) Worksheet by Kuta Software LLC Write the slope-intercept form of the equation of the line through the given points using point-slope form) through: (3, -3) and (0, -5)) Write the slope-intercept form of the equation of each line) $x - 2y = -$) $x - y = -$) $9x - 7y = -$) $x - 3y =$) $6x + 5y = -$) $4x - y =$) $x - 4y =$) Write an equation in point-slope form of the line graphed below.

 Difficulté **Difficile**

 Durée **650 minute(s)**
