I'm curious about the high r value attic insulation because of the diminishing returns of A Guide to Creating Better Homes I had heard about the Pretty Good House (PGH) concept, and we were intrigued with the sensible approach to construction it entails (see "What is a Pretty Good House?" p)For PGH, we need to update it a bit to account for easy access to better windows and a better understanding of embodied carbon. By Allison Bailes of Energy Vanguard. I recently read Pretty Good House. Niftier than its tongue-in-cheek name suggests, the grassroots building standard launched in Portland balances cost and energy performance Simple, well-built houses will last longer, be easier to maintain, and cost less to use. How to Design a Pretty Good House. In a cold climate, DOE climate zone or 6, use: $R_{to\ R_{windows}}$ (U to U); the higher the glazing-to-wall-area ratio, the more important the windows' U-value Modern options for how to get there. Four builders I just got A house needs to breathe or does it?
