The M3 software controls the M3 multibeam echo-sounder, acquires sounding data and exports the sounding data to the QINSy software. As of Qinsy, databases are upgraded and not compatible with previous versions. The option to create a backup of original DB files will be offered during project startup. The QINSy Software has been installed and setup in house. QINSy OFFICE is the offline license and is meant for planning or processing activities. Maximize ship time. No more unnecessary and costly ship turns to get back on line. Qinsy is used for precise navigation, hydrographic surveying, construction surveys, inspection surveys and dredging and seismic surveys. The M3 BATHY system software package includes the M3 software and the QINSy software. The course does not cover the EA single beam echosounder or its operator software. Qinsy databases are compatible with: Qimera versions and newer; Fledermaus versions and newer; NOT compatible with Qarto. Qinsy acquisition is the most reliable in the industry, which leads to improved operational performance for our clients. Qinsy is a survey planning, acquisition, and real-time hydrographic data processing solution, supporting a wide variety of industries. Qinsy is the ultimate in client flexibility, with support to single beam Scalable Proven, reliable performance for workflows with multiple sensors and objects. Efficiency— Qinsy General. QinsyFree download as PDF File.pdf), Text File.txt) or read online for free. Qinsy is a survey planning, acquisition, and real-time hydrographic data processing solution, supporting a wide variety of industries. Qinsy is used for precise navigation, Qinsy is a survey planning, acquisition, and real-time hydrographic data processing solution, supporting a wide variety of industries, from simple single beam surveys to complex beam surveys with QINSy. Target Users: Beginners with little or without any. This document outlines the basic functions used when operating QPS's QINSy Software with the MDL Dynascan. Data that is recorded with one of the QINSy acquisition licenses can be analysed, replayed. The M3 BATHY is a compact, lightweight multibeam echo-sounder system for shallow water survey.

 Difficulté **Difficile**

 Durée **92 minute(s)**

 Catégories **Art, Alimentation & Agriculture, Bien-être & Santé, Maison, Robotique**

 Coût **811 USD (\$)**
