Knox Hamilton needs a wife. With his father's recently vacated Senate seat up for grabs, he has to lose his playboy reputation and fast. There's just one problem there's only one woman he's willing to share his life with...and she wants nothing to do with him. The last thing Chloe Lochlan needs is her ex crashing her blind date, especially when it's to propose. Knox already crushed her heart once and she has no intention of letting it happen again. But when he makes her an offer she can't refuse, she finds herself with a diamond ring and DC's most eligible bachelor. Except just when she thinks this business-only relationship is a win for everyone, something unexpected happens...
