Before iron helmets and steel swords, when dragons roamed the world, was an age of bronze and stone, when the Gods walked the earth, and people lived in terror. In this era a scribe, a warlord, a dancer, a mute insect and a child's should have no chance against the might of the bickering gods and their cruel games. But the gods themselves are old, addicted to their own games of power, and now their fates may lie in the hands of mere mortals . . . The third in this original, visceral epic series weaving together the mythologies of a dozen pantheons of gods and heroes to create something new and magical, this tale of the revolt against the tyranny which began in Against All Gods is a must-read from a master of the fantasy genre.
