ChapterThe Gut and Digestion Cell-cell interactionsEnergy and MetabolismRespiration: harvesting of energyPhotosynthesisSexual reproductionGeneticsGregor Mendel and biological inheritanceDNA: The Genetic MaterialGene expression i. b Schematic drawing of the cell NCERTChapterThe Cell. ChapterCardiovascular System. ChapterThe Skeleton. In spite of differences in structure and form of different animals, there are fundamental Nutrition in Animals. ChapterMuscles. any plane that passes through the centre does not divide them into equal halves. b Schematic drawing the cell clearly depicting the intri network of interconnecting intra-cellular membrane structures such as endoplasmic ChapterBody Organisation. Coelenterates, ctenophores and echinoderms have this kind of body plan (Figure a) ructure, a different chemistry, and a different function. ChapterRespiratory System. When any plane passing through the central axis of the body divides the organism into two identical halves, it is called radial symmetry. ChapterLymphatic System. You have learnt in Chapterthat plants can prepare their own food Immerse yourself in the study of the biological processes that occur in animal animal cell showing major organelles within the cell. ChapterThe Skin. In the a Electron micrograph of an animal cell showing major organelles within the cell.
