The text states that many behavioral psychology studies are flawed because the subjects used are “highly unrepresentative.” 5 Despite the generalizations about human behavior they have produced, many studies of behavioral psychology have used highly unrepresentative subject pools: students at the colleges and universities where the researchers are employed. To \_\_\_\_ this situation, it is necessary to actively recruit subjects from diverse backgrounds and locations Shapes of bears, wolves, whales, eagles, and other wild creatures were carved into soft tree trunks. Drums and voices swelled like thunder when the pole rose TX STAAR GradeScience Answer Key Created Date/3/PM Simulate test day by printing and taking the official SAT practice test provided here as a PDF.
