The former Presidential Agents Office of Organizational Analysis has been disbanded. Charley Castillo and his colleagues have retired, and the sudden death of the President has brought an adversarial Commander-in-Chief into the Oval Office... But just because Castillo is out of the government doesnt mean hes out of business. He still has the skills and the manpower to do what others cant or wont do. And his first job is a real killer. A barrel filled with some nightmarishly lethal biohazard material has been shipped to an Army medical labmaterial that Castillo and his men were supposed to have destroyed on a mission. Clearly, the message is that more of the deadly material remains. But who has it? And what do they want? With lives at stakeincluding his ownCastillo knows that hes not going to like the answers one damn bit...
