Description	FabLab Leuven is "open source hardware" for students and public at large, let's say: a library with user-friendly machines to make almost anything out of **wood** or **plastic**. Using the FabLab is **for free** if you share your knowledge with others. You can use the machines for free, as long as you put your results online ! As a student you always bring your personal student card from "Associatie KU Leuven" with you. **<u>Opening hours:</u>** ° Mon-Tue-Thu-Fri: from 8:45 am to 5:45 pm (according to "first come first serve" principle) ° Wed: from <u>9.15</u> am to 5.45 pm (according to "first come first serve" principle) **°** July and August: opening hours Mon-Fri: from 9u00 to 17u30
