Legends exist in the past until now. How inconvenient. The battle has been won, but the war is far from over. With her greatest ally at death's door, it's up to Lily Singer to make things right. Troublemaking witch friend and talking cat in tow, she must pursue her father as he seeks to discover an ancient evil and steal its power for himself. But her father isn't the only one seeking that power. When a queen of the fae gets involved and Sebastian's past comes back to haunt him, the three friends have to think fast and act faster to defeat legends that are, unfortunately, no longer in the past. Far from home and facing perilous odds, Lily fears she's not strong enough to keep her friends safe and win the day. Can she rise to the occasion or will this adventure be the end of them all?
