ISBN-13: 9781504040839

A hard-charging tale of oppression and revenge by an award-winning author who helped define the western genre. Frank g

Chess didnt care for much in this world. Especially himself. So taking a job for local big shot Rhino Hulst was an easy choice.
Each day drifted into the next: running Rhinos crooked errands, blowing his meager pay in the nearest poker game, drinking
it down in the closest saloon, and handing it over to the next soiled dove. All because Rhino killed a man in cold blood,
pinned it on Frank, and now holds the hangmans rope over him. And who would give a damn? Frank came into town a
driftera fiddlefoot, they called himworth nothing to no one. He didnt matter. But none of the townspeople know Frank.
Where he came from. What hes done. And when he finally remembers what its like to care about something, they have no
idea how much hell hes about to bring down on them all. Along with legendary authors like Zane Grey and Louis LAmour,
Luke Short helped transform the stories of the American West from dime-store pulp into a respected and immensely
popular literary genre. Originally serialized in the Saturday Evening Post, Fiddlefoot combines Shorts plainspoken style
with the hard-edged authenticity that marks his novels as true classics of western adventure.
