When first impressions happen twice. Welcome to Seattle, the Emerald City and home to The Single Dads of Seattle. Ten sexy single fathers who play poker every Saturday night, have each other's backs, love their children without quarter, and hope to one day find love again. This is Atlas's story ...Single Dad of Seattle, Atlas Stark is in over his head. A widower, he's been left to raise his daughter, and his infant cousin alone, while also trying to make partner at his law firm. If things at work weren't stressful enough, his home life is getting hairy too. His daughter's acting out, eager for her father's attention, and she's taking it out on the baby. Already stretched too thin, he's one frayed strand away from snapping. Desperate for help, he takes her to see a therapist. What he doesn't count on is her being a tall, blonde knock-out with sapphire eyes and a penchant for motorcycles. Too bad she annoys the crap out of him. Tessa Copeland's life has never been easy. With a chronically ill mother, she was forced to grow up quicker than most. A successful art therapist, she's determined not to let her baggage set her back. Until her fiancé cheats on her and takes her dog. She's never brought her personal life to work, but she can't stop thinking about the father of one of her clients, or the fact that he's an assuming jerk with a smolder that gets her engine running. But things grow blurry when she finds herself seeking legal counsel from the broody Atlas, and even though the two continue to butt heads, their chemistry is undeniable. Will flirting with the single dad lead Tessa down a dangerous road riddled with potholes and blind turns? Or will it be exactly what they both needed to finally feel whole again?
