Horror fiction has long celebrated and explored the twin engines driving human existence. Call them what you like: Sex and Death, Love and Destruction, Temptation and Terror. While many may strive to reach the extremes, few authors manage to find the beauty that rests in the liminal space between these polar forces, the shuddering ecstasy encased within the shock. And then there's Livia Llewellyn, an author praised for her dark, stirring, evocative prose and disturbing, personal narratives. Lush, layered, multifaceted, and elegant, the thirteen tales comprising Furnace showcase why Livia Llewellyn has been lauded by scholars and fans of weird fiction alike, and why she has been nominated multiple times for the Shirley Jackson Award and included in year's best anthologies. These are exquisite stories, of beauty and cruelty, of pleasure and pain, of hunger, and of sharp teeth sinking into tender flesh.
