In this book from the critically acclaimed, multimillion-copy bestselling Little People, BIG DREAMS series, discover the incredible life of Steve Irwin, animal lover and wildlife conservationist. Little Steve loved animals, and his childhood was spent amongst Australia's wildlife. As a young boy, his parents started a wildlife refuge and Steve and his sisters helped care for many injured animals. When he was nine, Steve captured his first crocodile, in order to take it to a national park so it could have a safe, happy life. He fell in love with protecting crocodiles and as an adult became known as the crocodile hunter! Steve shared his love of wildlife and his passion for protecting it through television programmes, and soon rose to international fame. Steve used his celebrity status to educate the world on the importance of conservation. He and his wife, Terri, created nature reservations, grew their wildlife refuge, started a charity and raised their two children to love wildlife as much as they did. Steve became one of the most celebrated conservationists in Australia and across the world. Today, Steve's family continue his incredible work through Australia Zoo and Wildlife Warriors, the conservation charity founded by Steve and his wife Terri in 2002. Steve's legacy continues to inspire young animal lovers and eco warriors everywhere, helping a new generation to protect the natural world and all the creatures who inhabit it. This inspiring book features stylish and quirky illustrations and extra facts at the back, including a biographical timeline with historical photos and a detailed profile of the incredible animal activist and wildlife conservationist's life. Little People, BIG DREAMS is a best-selling biography series for kids that explores the lives of outstanding people, from designers and artists to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream. This empowering series of books offers inspiring messages to children of all ages, in a range of formats.
