The engaging and ambitious (Washington Post) history of libraries and the people who built them, from the ancient world to the digital age. The history of the library is rich, varied, and stuffed full of incident. In *The Library*, historians Andrew Pettegree and Arthur der Weduwen introduce us to the antiquarians and philanthropists who shaped the world's great collections, trace their rise and fall of literary tastes, and reveal the high crimes and misdemeanors committed in pursuit of rare manuscripts. In doing so, they reveal that while collections themselves are fragile, often falling into ruin within a few decades, the idea of the library has been remarkably resilient as each generation makes and remakes the institution anew. *The Library* proves that truth is more intriguing than fiction. Full of charismatic individuals and astonishing facts. *The Times* (London)
