Practice makes perfect in just 10 minutes a day! There is nothing more important than your child's education, but sometimes it's difficult to find the time to fit everything in. The 10 Minutes a Day series fits in around busy lives. Aimed at ages 8-9, 10 Minutes a Day Math: 3rd Grade covers a range of curriculum subjects, including place value, rounding, solving problems, line graphs, and more. Each exercise is simply and clearly introduced to help learning, and uses a variety of interesting methods to help learning, from filling in the gaps to matching exercises. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes and want to continue practicing, or just want ideas for additional activities to do at home. Answers are provided, along with parents' notes that explain what your child learns from the exercise, making this series perfect for homeschooling, or just helping your child stay ahead. Perfect both for the budding mathematician and those who need a little more support, 10 Minutes a Day Math is a colorful, controlled, and curriculum-aligned approach to mastering math.
