What Is the Microsoft AZ-900 Exam?

The Microsoft AZ-900 exam is designed for individuals who are new to cloud computing or want to validate their basic understanding of Microsoft Azure. It covers a wide range of fundamental topics such as:
- Core cloud concepts
- Azure architecture and services
- Azure pricing and service level agreements
- Security, compliance, and privacy in Azure

Unlike advanced certifications, AZ-900 doesn't require a technical background, making it perfect for students, beginners, business users, and professionals looking to add cloud expertise to their resume.

Why Use Microsoft AZ-900 Exam Dumps?

Exam dumps are real exam questions and answers compiled from previous test-takers. They offer a practical way to prepare for the real exam because they:
- Give you insight into actual exam formats
- Highlight important topics and questions
- Help you practice time management
- Identify your strengths and weaknesses
